

**Tribhuvan University**  
**Institute of Science and Technology**  
**Mahendra Morang Adarsh Multiple Campus, Biratnagar**

**Practical Examination - 2080**

*Bachelor Level / First Year / Second Semester*

**BIT**

**F. M.: 60**

Course Code: BIT201

Subject: Data Structures and Algorithm

**SET-A**

*Candidates are required to give their answers in their own words as far as practicable.*

**Group A**

**Attempt any TWO questions.**

**2x10=20**

1. Using recursion, write a program to find the factorial of a number entered by the user.
2. Write a program to implement push, pop, peek operations in stack using menu.

**Practical Examination - 2080**

*Bachelor Level / First Year / Second Semester*

**BIT**

**F. M.: 60**

Course Code: BIT201

Subject: Data Structures and Algorithm

**SET-B**

*Candidates are required to give their answers in their own words as far as practicable.*

**Group A**

**Attempt any TWO questions.**

**2x10=20**

1. Write a recursive program to find the hcf of two numbers entered by the user.
2. Write a program to implement enqueue and dequeue operations in a queue using a menu.
